

## INSTITUTE INDUSTRY CELL (IIC)

The Industrial Interface at PRTF serves as a crucial link between accomplished industry professionals and aspiring management graduates. Through their expertise and practical insights, these mentors create an environment that mirrors real-world industrial settings. This initiative fosters the development of essential managerial skills and provides valuable career guidance. By supporting students in navigating their professional journeys, the cell equips them to excel. These engagements offer students a glimpse into the management field and prepare them for future leadership roles.

### OBJECTIVES

- Facilitate consistent engagement with industry professionals.
- Organize guest lectures and workshops.
- Conduct on-campus training sessions led by industry experts.
- Arrange interactive sessions between industrial experts and students.
- Build connections between future managers and experienced ones.
- Offer a platform for dynamic knowledge sharing and active interaction.
